

Preadmission Testing Requirements

1. Please bring your insurance card and photo ID. Arrive 15 minutes prior to your scheduled appointment to complete any necessary paperwork.
2. Patients who will be admitted to the hospital following their surgery should be prepared to devote 1 hour to our preadmission testing process. You will also meet with a nurse case manager and have a medical review. A tour of the facility will be offered during this time. Patients who will be having an outpatient surgery should prepare to devote 15-30 minutes to our preadmission testing process.
3. Preadmission testing may consist of FASTING blood work, EKG, chest x-ray, and please be prepared to provide a urinalysis. Do not eat or drink anything other than water after midnight the night before your testing appointment. Snacks will be provided after you have completed your blood work.
4. Please bring a written list of your medications, including the strength and frequency and a list of your previous surgeries.
5. You are encouraged to bring a support person with you to this appointment if you are staying overnight.
